## Protecting your intellectual property and realising it's full value

We have teamed up with One Stop IP [www.onestopip.com](http://www.onestopip.com) who are dedicated to providing Intellectual Property advice and services in a clear and transparent way.

This is a new and innovative method to protect and manage your Intellectual Property assets securely online, with clear upfront costs and interactive reporting. You can track and manage your assets from any location via a cloud portal, backed by Salesforce. There are expert IP attorneys and administrators always at hand should you require professional support and the link to Good Egg ensures your brand strategy always informs your IP strategy.

### Trademarks

A complete suite of services that will help you register your trademarks and ensure that you protect and manage them into the future.

### Copyright

Understanding the rules of copyright and ensuring that your brand is adequately protected against copyright infringement.

### Design registration

Making the process of registering designs quick and simple, whilst ensuring renewals are flagged and infringements tracked.

### Licensing agreements and merchandising

Preparation of contracts granting the right to produce and sell goods, apply your brand name or trademark, or use patented technology owned by you.

### Domains

A thorough audit of your domains and similar names used by others with advice on what should be secured to prevent unlawful exploitation of your online identity.

### Counterfeiting and brand protection

New and innovative methods for brand owners to regain full control over their brand identity and taking the fight to global counterfeiters.
